

protective coatings and resin flooring

PRODUCT DATA

API CLEANER

PRODUCT DESCRIPTION

API Cleaner is a concentrated neutral cleaner designed for daily maintenance on all floors sealed or coated with API products. It is formulated to clean safely and efficiently, while maintaining the properties of the finished floor. API Cleaner is an economical, highly concentrated, non-corrosive biodegradable cleaner.

TYPICAL USES

API Cleaner is recommended for use in cleaning and maintaining all sealed and unsealed API floors. However, it is an excellent general purpose cleaner for all surfaces.

PRODUCT ADVANTAGES

- Non-corrosive
- pH neutral
- Biodegradable
- Highly concentrated
- Completely free-rinsing
- Leaves no dulling film
- Maintains anti-slip properties of modern floor finishes

APPLICATION

API Cleaner can be used with a mop, scrub brush, or automatic floor machine. The proper dilution for the cleaning required should be made in a clean container with clean water. If the cleaning solution is allowed to dry on the floor prior to pick-up, then a rinse step using clean water will be necessary.

PACKAGING

API Cleaner is packaged in 2.5 gallon jugs and nets 10 kg (22.0 lb) of concentrated liquid.

STORAGE CONDITIONS

Store API Cleaner between 16 and 30°C (60 and 86°F) in a dry area. Do not freeze.

DILUTION

Because API Cleaner is packaged in a concentrated form, it must be diluted for use. Dilution can be accomplished with hot or cold water using the below dilution ratios.

Light Cleaning.....2-4 oz. per gallon of water
 General Cleaning.....4-6 oz. per gallon of water
 Heavy Cleaning.....6-12 oz. per gallon of water

RECOMMENDATIONS

- The dilution ratios stated are approximations. Adjust the dilution ratio to optimize cleaning performance or to affect greater economy.
- Rinsing is not required before recoating floors cleaned with API Cleaner.
- API Cleaner is a very versatile cleaner, and should be considered for cleaning all types of surfaces, including vinyl tile, sheet vinyl, walls, and counter tops.
- Dispose of waste materials in accordance with government regulations.

PRECAUTIONS

- The use of safety glasses and impervious gloves is required during application.
- Avoid contact with all liquids as they may cause skin and/or eye irritation. In case of contact, flush the area with copious amounts of water for at least 15 minutes and seek medical attention.
- Wash hands thoroughly with soap and warm water after use.
- Use only with adequate ventilation.
